Dear Ladies and Gentlemen,

We are honoured to invite you to the Fourth International Scientific Conference UNIVERSALISM OF HUMAN WORK. The topics of the conference will focus on the challenges facing education in times of rapid social change. An attempt will be made to answer the question: To what extent does modern education prepare for the modern labour market? The topics to be discussed at the conference are important as they addresses important problems of the human being entangled in the network of dependencies between education, the labour market and human existence. The choice of the above topics is dictated by the need to undertake an academic discourse analysis in the context of the impact of education on human lives and the challenges facing education in times of social inequality. Education and work are the basic human activities that define membership of particular social groups and determine the functioning of modern man in many areas of life.

The aims of the conference are to:

- Present the role of education in human life.
- Present the relation between education and the labour market.
- Indicate the tasks facing education in the context of the changes taking place in the labour market.
- Provide an understanding of the problems of marginalised groups with access to education.
- Show the multifaceted nature of education and of its impact on the functioning of the individual and social groups.
- Point out the role of education policy in shaping the system of education and schools.
- Draw attention to problems affecting the pursuit of careers, i.e. bullying, stress, burnout.
- Show the importance of the ethical and philosophical dimension of education in human life.
- Make an attempt at developing a common concept of education and work as the determinants of human existence from an international perspective.

With regard to the aforementioned considerations, we would like to extend the invitation to participate in the conference to academics and practitioners, including academic teachers, career consultants, local government bodies, non-governmental institutions, employers and employees, as well as church and political bodies.

Proposed subject areas:

1. Lifelong learning.
2. The ethical and philosophical dimension of education and work.
3. Education policy and the system of education in Poland and across the world.
4. Employment and labour market policy in the context of education.
5. Educational inequalities.
6. Marginalisation and discrimination in access to education and the labour market.
7. The educator in the face of the challenges of the modern labour market.
8. Education in times of social change.

We sincerely invite you to take an active part in our conference. It will be a great honour for us to have you at the planned meeting as your participation will certainly contribute to expanding knowledge concerning the proposed thematic areas. We hope that the conclusions from the studies presented will find practical application in future social policy programmes.

Deadline for submission of papers: **1st June 2022**

Editorial guidelines for authors:

- Authors are strongly encouraged to compose their papers in Microsoft Word text editor (best in the latest version of the Office suite, the file extension should be .docx).
- Please, use the Times New Roman fonts, size 12, spacing 1.5, justified text.
- The paper should be complete with an abstract in Polish and English, 3 to 5 key words in Polish and English and an English translation of the title.
- Limit of characters including spaces, annotations and bibliography: 20 000.
- American Psychological Association's standards of edition of annotations (in the form of bibliographical references) are applied.

The referencing pattern:

a) publication by 1 author:

Author's surname (date) text.

Example: Kowalski (2010) argues that...

A recent study indicates that... (Kowalski, 2010).

b) publication by 2 authors:

Surnames of both authors must always be given, along with the date of publication.

Example: As suggested by Kowalski and Nowak (2014)...

A recent study indicates that... (Kowalski, Nowak, 2014).

c) publication by 3-5 authors:

When referencing the study for the first time, surnames of all the authors should be given, divided by commas, with the conjunction 'and' between the last two surnames.

Example: As suggested by Nowak, Kowalski and Kliś (2014)...

A recent study indicates that (Nowak, Kowalski and Kliś, 2014) ...

In subsequent references to the same study, the phrase 'and others' ('et al.') can be used.

d) publication by 6 or more authors:

Only the surname of the first author should be mentioned, both when the study is cited for the first time and in subsequent references.

e) when referencing several studies, these should be enumerated alphabetically according to the author's surname;

f) when referencing several studies by the same author, published in the same year, 'a, b, c...' should be added to the year.

Bibliography/List of references

The references should be listed alphabetically.

The pattern for creating a bibliographic entry:

a) for a book

Surname(s) of the author(s), I. (year). *Title of the book*. Place of publishing: Publisher;
e.g. Pikuła, N.G. (2015). *Poczucie sensu życia osób starszych. Inspiracje do edukacji w starości*. Kraków: Oficyna Wydawnicza Impuls.

b) for an edited book:

Surname(s), I (ed.) (year). *Title of the book*. Place of publishing: Publisher;
e.g. Gerlach, R. Kulpa-Puszczyńska, A. Tomaszewska-Lipiec, R. (ed.) (2008). *Wybrane problemy pedagogiki pracy w aspekcie przygotowania do pracy*. Bydgoszcz: Wydawnictwo Uniwersytetu Kazimierza Wielkiego.

c) for a chapter in a collective work:

Surname(s), I. (year). Title of the chapter. In: Surnames (ed.), *Title of the book* (pagination of the chapter). Place of publication, Publisher.

Waloszek, D. (2005). Przedszkole jako podstawa szkoły promującej rozwój człowieka. In: J. Kuźma, J. Morbitzer (ed.), *Edukacja – szkoła – nauczyciele: promowanie rozwoju dziecka*, (pp. 184-191). Kraków: Wydawnictwo Naukowe Akademii Pedagogicznej.

d) for an article in a periodical:

Surname(s), I (year). Title of the article/paper. *Title of the periodical, volume no.*, pagination of the article/paper.

Furmanek, W. (2015). Problematyka języka pedagogiki (pracy). *Labor et Educatio*, 3/2015, 11-30.

If an article has a DOI number (Digital Object Identifier), this should be given at the end of the bibliographic entry.

e) internet sources:

Surname(s), I (year). Title of the article/paper. *Title of the periodical, volume (no.)*, pagination. Retrieved from: here, enter the URL of the website.

If the cited text is on a website and is not an article in a periodical, a chapter in a book or a book, the entry should include the author, the date of publication, title as well as information on the website from which the text was retrieved.

Papers sent should have the following structure:

1. First name and surname of the author
2. Author's affiliation
3. Title of the paper in Polish
4. Title of the paper in English
5. The body of the text divided into subheadings
6. Abstract in Polish
7. Key words in Polish
8. Abstract in English
9. Key words in English
10. References
